To subscribe to the system signals, please print this form (3 pages total), fill it out, initial each page, & sign. Receipt of a signed copy is required before your subscription can be started. Fax, scan and e-mail or mail this form to:

Lease rates are determined by the number of contracts you wish to trade and are based on quarterly lease periods. For example, if you want to trade 1 contract of Sentinel NQ & 1 of Metrica ES, that's two total, & the cost for 1 quarter at the broker-assist rate would be \$225. Or if you wish to trade Vista III, because there are 3 systems, each trading one contract, that's three total, & the quarterly cost is \$279. The more contracts leased, the less the cost is per contract. At least five days prior to your lease-period expiration, you will be sent a renewal notice, at which point you will decide and notify TradingVisions if you wish to renew. **Subscription fees are non-refundable.**

Once this signed form and your initial subscription fee have been received or authorized, your subscription term begins the next trading day or the date you choose below.

To preserve effectiveness of the systems, TradingVisions reserves the right to limit the number of subscribers &/or contracts traded.

DISCLOSURES & DISCLAIMERS

Commodity trading bears a high degree of risk. People can and do lose money. Past performance does not guarantee future results. Although every attempt is made to ensure the accuracy of these numbers, we cannot guarantee that they are, due to inaccuracies in data or errors in calculation. HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM. ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE

RESULTS IS THAT THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL PERFORMANCE TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ALSO ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OF THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS.

Nothing presented here or on the TradingVisions web site should be construed as a recommendation to buy or sell any security. Trading in Commodity Futures is very risky. There is a possibility of substantial financial loss, greater even than monies initially invested. The simulated, hypothetical performance results presented herein have certain inherent limitations, due to the fact that the trades have not actually been executed. Simulated trading results, in general, may be influenced by the fact that the algorithms which generated them were designed in consideration of historical trends, and with the benefit of hindsight. Past real or hypothetical performance of any of the TradingVisions systems is not a guarantee of future results, real or hypothetical. No representation is made that any trading account would, or would be likely to achieve profits or losses similar to the real or hypothetical results described herein. TradingVisions Systems, Inc. ("TSI"), including but not limited to all agents & affiliates of TSI, participating in the distribution of information contained in, & operation of, the web sites known as "www.TradingVisions.com," www.TradingVisions-Systems.com, and "www.TradingVisionsInc.com", are held harmless and are without liability regarding any use whatsoever of the information presented on this web site. For the purposes of this site, "real-time" means trades and results that are out-of-sample, i.e. they occurred based upon the system rules in place at that time. "Real-time" does not necessarily refer to actual trades taken.

Trading may not be suitable for all viewers of this site or potential users of TSI. You, and not TSI, assume the entire cost and risks of any trading you choose to undertake. Under no circumstances shall TSI be liable for any special or consequential damages that result from the use of or the inability to use, the materials, if any, provided by TSI. Applicable law may not allow the limitation or exclusion of liability or incidental or consequential damages, so the above limitation or exclusion may not apply to you. In no event shall TSI's total liability to you or your assigns for all damages, losses and causes of action, whether contract or tort (including, but not limited to negligence), or otherwise exceed the amount paid by you, if any, for use of materials provided by TSI.

The information, data, and methodologies contained in this site and available for purchase or lease (the Information) are not intended to be published or made available to any person in any jurisdiction where doing so would result in contravention of any applicable laws or regulations. Accordingly, if it is prohibited to make such information available in your jurisdiction or to you (by reason of your nationality, residence or otherwise) it is not directed at you. Before reviewing the pages of our site or making a purchase or lease, you must be satisfied that doing so will not result in such a contravention and is not so prohibited, and by proceeding to review them you will be confirming that this is not the case.

TSI has taken all reasonable care and precaution to ensure that the Information is fair and accurate, or has been compiled from sources believed to be reliable. Nevertheless, TSI does not make any representations or warranty, express or implied, as to the accuracy, completeness, or fitness for any purpose or use of the Information. The Information may not in all cases be current, and it is subject to continuous change. Accordingly, you should not rely on any of the Information as authoritative or a substitute for the exercise of your own skill and judgment in making any investment or other decision. TSI does not warrant that the Information is error free, and will not be liable for any direct, indirect, or consequential loss arising from any use of or reliance on this Information. TSI IS NOT A REGISTERED BROKER-DEALER OR FINANCIAL ADVISOR. TSI DOES NOT PROVIDE PERSONAL INVESTMENT ADVICE.

Any portfolios recommended by TSI are suggested combinations that are subject to change without notice. The ultimate choice and responsibility of a trading portfolio is the client's alone. Any results or performance numbers are hypothetical, apply only to the current recommended portfolios and systems, and are not intended to show the results of past recommended portfolios or systems. TradingVisions is not responsible for notifying clients about changes in portfolios or systems and has neither the right nor responsibility to alter what is traded in client accounts.

Unless otherwise stated, hypothetical results reported by TradingVisions are those generated by the latest version of the systems, including the specific rules and parameter settings. It is therefore not advisable, nor is it the intended purpose, to use these hypothetical results as a guide to what past results should have been achieved by utilizing the version of the systems in effect at a past time.

TSI makes a good faith effort to see that all trading signals are correctly executed but cannot be held liable for missed or erroneous trades or for an inability or lack of monitoring of client accounts.

No representation is being made that any account will achieve similar results to any other account or actual or hypothetical performance numbers presented in the TradingVisions site or materials. Results can vary significantly from brokerage to brokerage, depending upon many factors not under the control of TradingVisions.

In some cases, slightly different entry and exit times and prices may be used in leased and/or purchased copies of the trading systems, in an attempt to lessen the impact of multiple orders reaching the market at or close to the same time. While over time and an extended number of trades these differences have in the past tended to be small and immaterial, they may in fact prove to have a material impact or over shorter timeframes have a material impact.

AGREEMENT

By leasing a TradingVisions system or portfolio, I, the undersigned, hereby acknowledge that I have read, that I understand, and that I accept the statements, terms and conditions presented in the lease form and agreement text on this page and on the previous page. I understand and agree that any dispute arising out of connected to this agreement will be submitted to binding arbitration or non-binding mediation. I will bear my own expenses in connection with any such arbitration or non-binding mediation. In no event will TradingVisions or its owners or employees be held liable for any costs or damages or losses, direct or indirect, beyond the amount of lease fees paid by me.
