## DISCLOSURES & DISCLAIMERS

Commodity trading bears a high degree of risk. People can and do lose money. Past performance does not guarantee future results. Although every attempt is made to ensure the accuracy of these numbers, we cannot guarantee that they are, due to inaccuracies in data or errors in calculation.

HYPOTHETICAL PERFORMANCE RESULTS HAVE MANY INHERENT LIMITATIONS, SOME OF WHICH ARE DESCRIBED BELOW. NO REPRESENTATION IS BEING MADE THAT ANY ACCOUNT WILL OR IS LIKELY TO ACHIEVE PROFITS OR LOSSES SIMILAR TO THOSE SHOWN. IN FACT THERE ARE FREQUENTLY SHARP DIFFERENCES BETWEEN HYPOTHETICAL PERFORMANCE RESULTS AND THE ACTUAL RESULTS SUBSEQUENTLY ACHIEVED BY ANY PARTICULAR TRADING PROGRAM. ONE OF THE LIMITATIONS OF HYPOTHETICAL PERFORMANCE RESULTS IS THAT THEY ARE GENERALLY PREPARED WITH THE BENEFIT OF HINDSIGHT. IN ADDITION, HYPOTHETICAL PERFORMANCE TRADING DOES NOT INVOLVE FINANCIAL RISK, AND NO HYPOTHETICAL TRADING RECORD CAN COMPLETELY ACCOUNT FOR THE IMPACT OF FINANCIAL RISK IN ACTUAL TRADING. FOR EXAMPLE, THE ABILITY TO WITHSTAND LOSSES OR TO ADHERE TO A PARTICULAR TRADING PROGRAM IN SPITE OF TRADING LOSSES ARE MATERIAL POINTS WHICH CAN ALSO ADVERSELY AFFECT ACTUAL TRADING RESULTS. THERE ARE NUMEROUS OTHER FACTORS RELATED TO THE MARKETS IN GENERAL OF THE IMPLEMENTATION OF ANY SPECIFIC TRADING PROGRAM WHICH CANNOT BE FULLY ACCOUNTED FOR IN THE PREPARATION OF HYPOTHETICAL PERFORMANCE RESULTS AND ALL OF WHICH CAN ADVERSELY AFFECT ACTUAL TRADING RESULTS.

Nothing presented here or on the TradingVisions web site should be construed as a recommendation to buy or sell any security. Trading in Commodity Futures is very risky. There is a possibility of substantial financial loss, greater even than monies initially invested. The simulated, hypothetical performance results presented herein have certain inherent limitations, due to the fact that the trades have not actually been executed. Simulated trading results, in general, may be influenced by the fact that the algorithms which generated them were designed in consideration of historical trends, and with the benefit of hindsight. Past real or hypothetical performance of any of the TradingVisions systems ("the Systems") is not a guarantee of future results, real or hypothetical. No representation is made that any trading account would, or would be likely to achieve profits or losses similar to the real or hypothetical results described herein. TradingVisions Systems, Inc. ("TSI"), including but not limited to all agents and affiliates of TSI, participating in the distribution of information contained in, & operation of, the web site known as <http://www.TradingVisions.com> or its affiliates, are held harmless & are without liability regarding any use whatsoever of the information presented on this web site.

Trading may not be suitable for all viewers of this site or potential users of the Systems. You, and not TSI, assume the entire cost

and risks of any trading you choose to undertake. Under no circumstances, including, but not limited to, negligence, shall TSI be liable for any special or consequential damages that result from the use of or the inability to use, the materials provided by TSI, even if TSI or its authorized representatives have been advised of the possibility of such damages. Applicable law may not allow the limitation or exclusion of liability or incidental or consequential damages, so the above limitation or exclusion may not apply to you. In no event shall TSI's total liability to you or your assigns for all damages, losses and causes of action, whether contract or tort, (including, but not limited to negligence), or otherwise exceed the amount paid by you, if any, for use of materials and Information provided by TSI.

Accordingly, if it is prohibited to make such information available in your jurisdiction or to you (by reason of your nationality, residence or otherwise) it is not directed at you. Before reviewing the pages of our site or purchasing a license, you must be satisfied that doing so will not result in such a contravention and is not so prohibited, and by proceeding to review them you will be confirming that this is not the case.

Nevertheless, TSI does not make any representations or warranty, express or implied, as to the accuracy, completeness, or fitness for any purpose or use of the Information. The Information may not in all cases be current, and it is subject to continuous change. Accordingly, you should not rely on any of the Information as authoritative or a substitute for the exercise of your own skill and judgment in making any investment or other decision. TSI does not warrant that the Information is error free, and shall not be liable for any direct, indirect, or consequential loss arising from any use of or reliance on this Information.

Unless otherwise stated, hypothetical results reported by TradingVisions are those generated by the latest version of the systems, including the specific rules and parameter settings. It is therefore not advisable, nor is it the intended purpose, to use these hypothetical results as a guide to what past results should have been achieved by utilizing the version of the systems in effect at a past time.

In some cases, slightly different entry and exit times and prices may be used in leased and/or purchased copies of the trading systems, in an attempt to lessen the impact of multiple orders reaching the market at or close to the same time. While over time and an extended number of trades these differences have in the past tended to be small and immaterial, they may in fact prove to have a material impact or over shorter timeframes have a material impact.

TSI has taken all reasonable care and precaution to ensure that trading system rules are correctly coded into TradeStation EasyLanguage, but TSI cannot be held liable for errors or omissions in software coding or trade execution.

Any portfolios recommended by TSI are suggested combinations that are subject to change without notice. The ultimate choice and responsibility of a trading portfolio is the client's alone.

The Information does not constitute or form part of an offer, subscription, recommendation or solicitation to buy or sell any securities, futures or options on futures or to take up any services, nor shall it be relied on in connection with any contract or commitment whatsoever. TSI IS NOT A REGISTERED BROKER-DEALER OR FINANCIAL ADVISOR. TSI DOES NOT PROVIDE PERSONAL INVESTMENT ADVICE.

---

By licensing the System(s) now and/or in the future from TSI, I, the undersigned, hereby acknowledge that I have read, that I understand, and that I accept the statements, terms and conditions presented in the order form and licensing agreement. I am licensing the systems exclusively for my own use in trading my personal funds and will not use the systems to trade the accounts of other parties, nor will I trade beyond the limits stated herein. If requested by TradingVisions, I will provide within 10 days copies of my brokerage statements to verify the number of contracts I am trading. I agree not to reveal the rules or signals of the systems to anyone, to sell the systems or signals, or to use the systems in any commercial enterprise. I understand that failure to follow the terms of this agreement will release TradingVisions from all obligations to the purchaser.

I agree that I will trade the systems entirely at my own risk and that I will be solely responsible for any losses that may be incurred. I understand that the systems are being delivered to me "as is" with no guarantee of accuracy or future profitability.

I have been informed about the risks of relying on hypothetical performance and I am aware that any form of past performance is not necessarily indicative of future results.
